Case No. 15-1398

PETITION FOR REVIEW

ORIGINAL

Pursuant to Rule 15(a) of the Federal Rules of Appellate Procedure and Section 307(b)(1) of the Clean Air Act, 42 U.S.C. §7607(b)(1) (“CAA”) and 5 U.S.C. § 702, the Energy & Environment Legal Institute respectfully petitions this Court for review of a final rule issued by the United States Environmental Protection Agency (“EPA”) published in the Federal Register at 80 Fed. Reg. 64661 (October 23, 2015), entitled “Carbon Pollution Emission Guidelines for Existing Stationary Sources: Electric Utility Generating Units: Final Rule.” This Court has jurisdiction, and is the proper venue for this action, pursuant to 42 U.S.C. § 7607(b)(1).

Petitioner will show that the final rule, as issued by the EPA, is arbitrary and capricious, is an abuse of the agency’s discretion and not in accordance with the law, was promulgated by decision-makers with an “unalterably closed mind,” failed to include material in the Administrative record, reflects the lack of an intelligible principle by which to regulation, failed to consider comments during the administrative process, exceeds the EPA’s statutory authority, and goes beyond the bounds established by the United States Constitution.
